## Welcome Aggreko Japan KK

Company is the BCCJ's newest Corporate member

---

Aggreko provides power and temperature control solutions to customers who need them either very quickly, or for a short or indeterminate length of time. It is listed on the FTSE-100 index and recent customers include the London 2012 Olympic and Paralympic Games and the Ryder Cup.

The company's global headquarters are in Scotland, with their Tokyo office opening in 2011 after first entering the Japan market with the 2002 FIFA World Cup. Its Tokyo team focuses on providing power and temperature control equipment to the events, manufacturing, utilities and petrochemical sectors.

# Test drive new dual fuel truck

## BCCJ members invited to energy and logistics event

---

BCCJ Entrepreneur member Daruma Energy is to host an introduction to its new dual fuel truck that runs on a mixture of diesel and LPG fuels. The truck will be displayed at a driving school in Oji (Kita-ku) on 2nd February. The morning will also include talks on "Energy & Logistics in Japan" and include an opportunity to test drive the truck.
